This page introduces our protagonist, Kaelen, and his routine life in the neon-drenched metropolis.

Page 2: The Discovery

something incredible: the long-lost “Bio-Dome.”

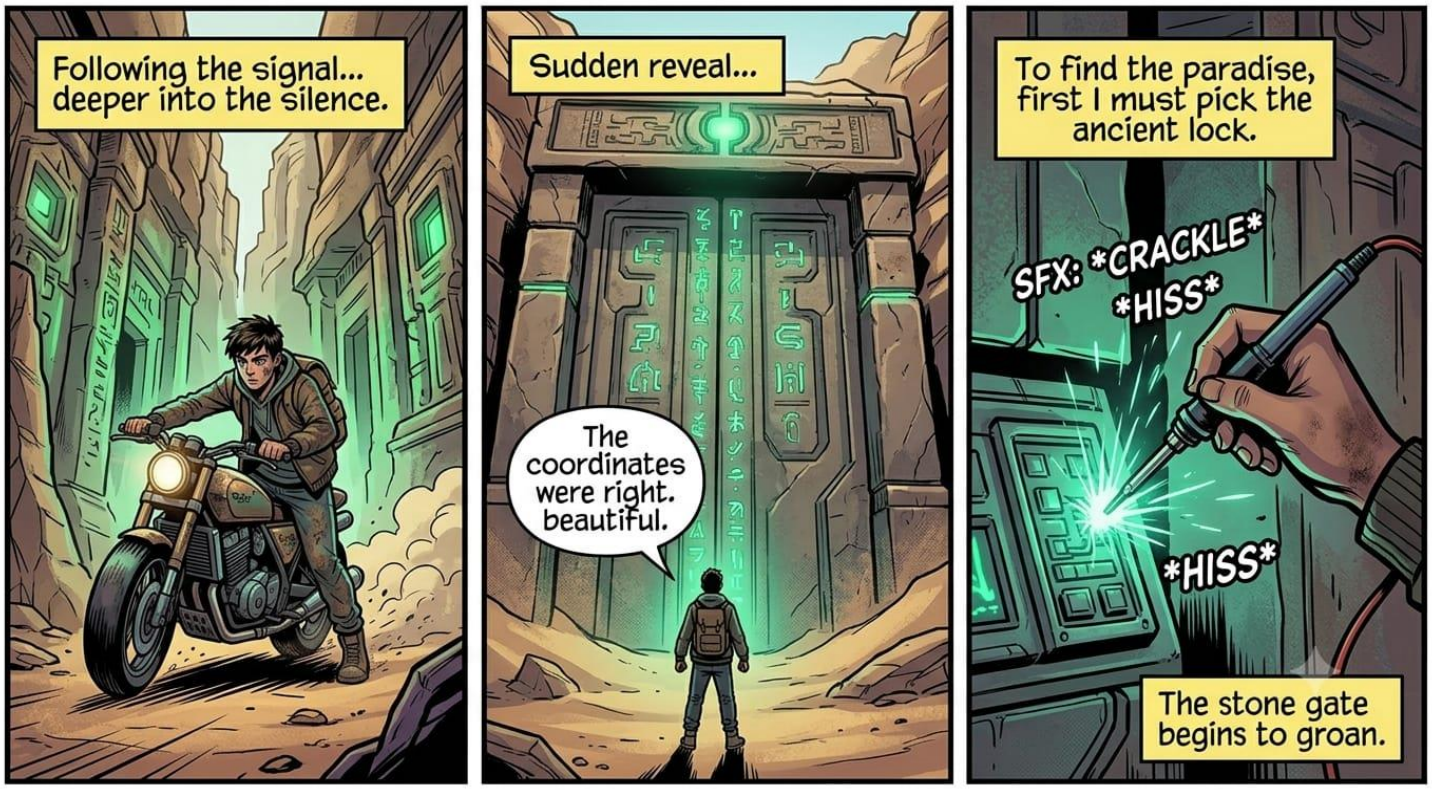

Page 3: Departure

Kaelen leaves the neon city behind, trading the artificial lights for the harsh, irradiated reality of the Wasteland.

Page 4: Arrival

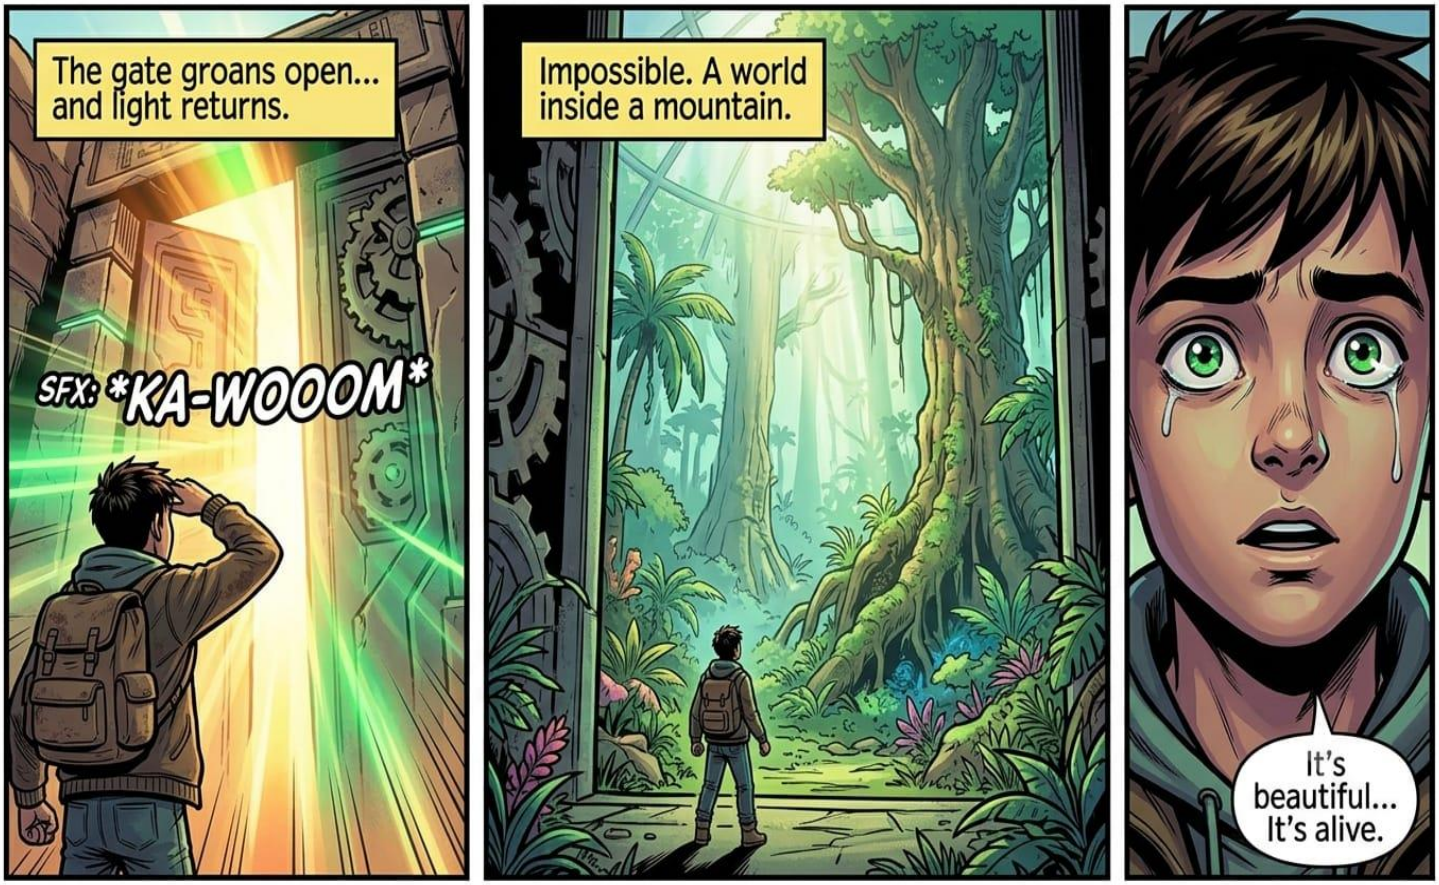

Kaelen arrives at the ruins but must use his scrapper skills to bypass a massive, powered stone gate blocking the entrance.

Page 5: The Bio-Dome

The gate opens, revealing a breathtaking, vibrant jungle hidden deep within the

mountain—the legendary Bio-Dome itself.

Page 6: The Caretaker

Kaelen explores the vibrant jungle, but his presence is quickly noted by the dome’s silent guardian.

Page 7: Confrontation

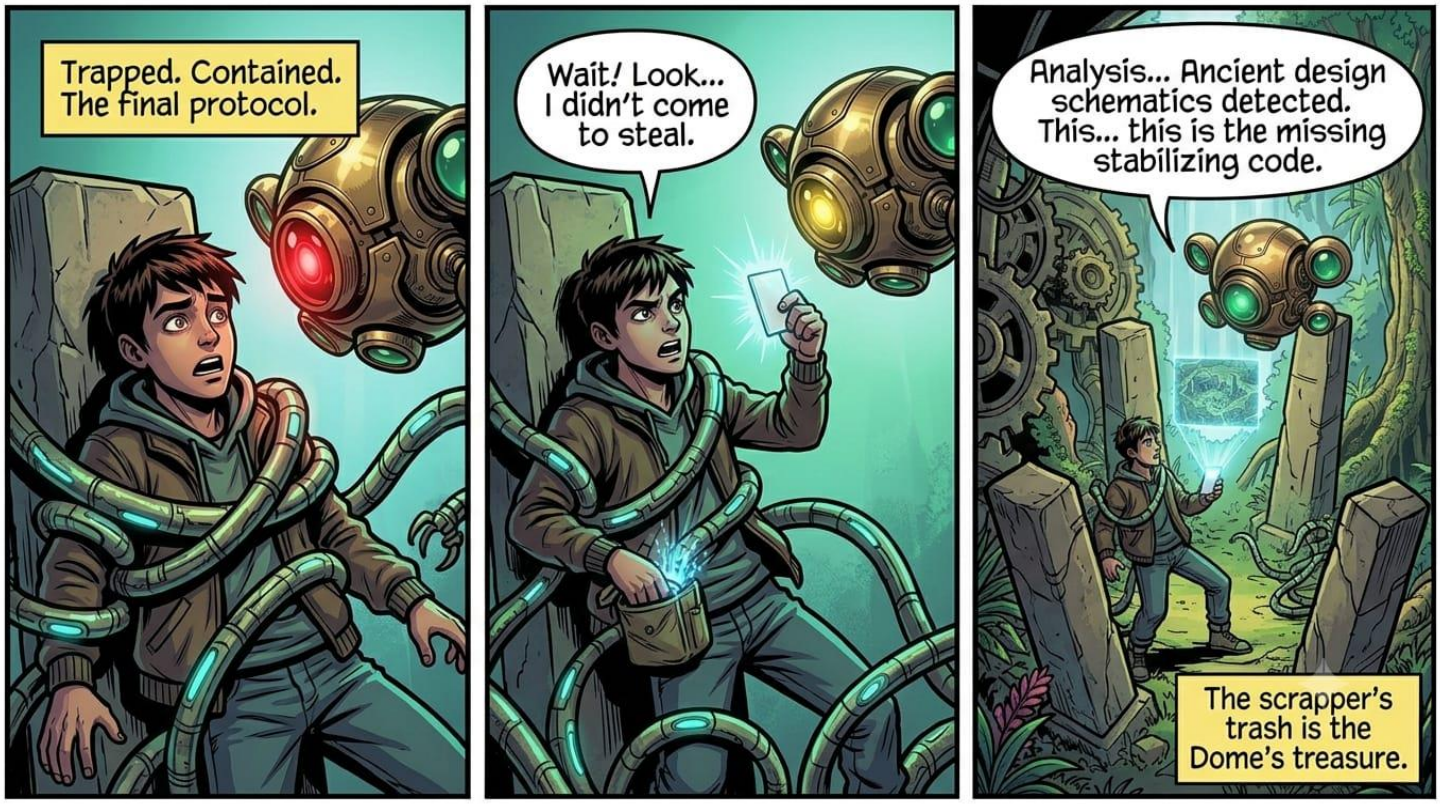

The Caretaker drone confronts Kaelen, demanding authentication. Kaelen is

trapped as the ancient defense systems activate.

Page 8: The Offering

Kaelen is pinned. Instead of fighting, he realizes the Dome needs a specific component it cannot create. He presents the original data-chit.

Page 9: Integration

The Caretaker drone accepts the gift. It uses the data to finally repair the Dome's core infrastructure. The environment stabilizes and flourishes.

Page 10: The New Life

Kaelen is accepted by the Dome. He trading scrapping for gardening, finally finding the peace and clean air he always sought.
